MUSIC WALK

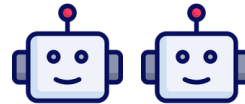

**Subject:****Music walk****Content:**

- kids learn how to write a task for a robot
- kids 'read' music like a robot

**Computational practices:
choose what fits**

- Decomposing
- Pattern recognition

Unplugged/plugged:**Preparation time:****15 min****Age:****8- 12 years****Duration:****75 min****Location:****outdoor/ gymroom****Group distribution:****groups of 3 kids****Difficulty****After this lesson, the children will be able to...**

- discover how to write a task for a robot
- 'read' music like a robot

Materials needed:

- paper tape
- boomwhackers
- box of (DIY) musical instruments
- printout of the attachments

Preparation and teacher notes

Paper Tape

Create a 10 x 10 grid on the floor using tape

Quickly design cards featuring symbols and instruction words

Arrange the obstacles

Tape 2 smaller grids on the floor for each group. If there are tiles on the playground they can use them as grids.

Warm up 15'

Position the kids on one side of the grid.

We will walk across the grid like robots, and it is essential to follow the instructions precisely.

Demonstration: Here are the commands you can give to your robot friend. (Display a card with the symbol and the written word.)

- straight
- left
- right
- backwards
- turn left
- turn right

Have a child give you an instruction and illustrate how making a turn can be a challenging command. When you receive the instruction to turn, remain in the same place on the grid!

Now, form groups of three.

One child will give instructions to guide another child to the opposite side of the grid.

- Bonus: Introduce obstacles on the grid that the kids need to navigate around.
- Ensure they finish on a specific spot within the grid.

Document your instructions and strive to follow them accurately:

- One child from your group will read the instructions while the other two walk on the grid. If both follow the instructions correctly, they should move together. If not, return to your starting position.

(For this exercise, we will not specify a particular starting point on the grid.)

Preparation and teacher notes

- boomwhackers.
- box of (DIY) musical instruments.
- Print multiple copies of the grid to outline their navigation.
- Print the sheet music for "Happy Birthday."
- Print the sheet music for "Twinkle Twinkle Little Star," along with the answers.
- Provide extra paper and markers for writing.

Cut out the symbols.

Build up (50')

(If you have never worked with the boomwhackers before, you can find many instruction videos on how to use the instruments correctly on YouTube)

In the grid, you find music tasks to solve. Navigate to the right spot and get to work! You navigate to the grid with the number of dee assignment. You will find the materials to complete the assignments at the teacher's desk (displayed on a table).

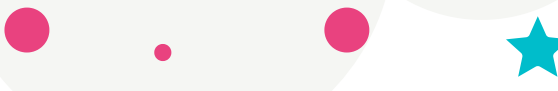

Take the time to show the tasks and give a little explanation before getting to work.

- Happy birthday
 - Get the music sheet.
 - Get all the colors of boomwhackers you need (6 colors).
 - Divide the colors in your group. Each kid plays 2 colors.
 - Try to play the song 'Happy birthday'.
- Twinkle twinkle little star
 - Get the music sheet and try to rewrite it for a robot.
 - Take a red marker, green marker, etc., and 'summarize' the music sheet.
- Make a jingle for your name. Use 2 musical instruments.
 - Ex.: Su- san Wi-Ili -ams.
 - Present your group of three to the teacher, show him/her your jingle.
- Make a body percussion rhythm
 - Approximately 10 counts of music.
 - Use the cards to assemble a rhythm.

Final task + clean up (15')

- What was a hard task to complete?
- What would have helped you?

• ...

Preparation and teacher notes

Keep all the information in mind and create a little happy dance to celebrate the group's accomplishment in completing their tasks.

- Find a child who enjoys showing a small dance or movement.
- Break down the dance into individual moves.

Illustrate the various moves and assign them names (such as arm up, hips left, head up, etc.).

Happy Birthday

C C D C F E)

Happy birthday to you

C C D C G F)

Happy birthday to you

C C C₈ A F F E D

Happy birthday dear Mary

G G A F G F)

Happy birthday to you

TWINKLE TWINKLE LITTLE STAR

TWINKLE TWINKLE LITTLE STAR
